

PORTABLE MULTI-DIRECTIONAL SUPER BRIGHT EMERGENCY LIGHT

Emergency lighting for: Hotels, Hospitals and homes
Good for Auditorium, Conference Halls, Libraries, Hospital
Wards Corridors and Reception Areas

★ Concept:

To provide immediate lighting to the area at the moment of power failure for a minimum period of 2hours.

★ Charging:

Designed to remain in the charging mode throughout its life without overcharging. Thanks to the microprocessor controlled charging circuitry.

★ Lighting:

Uses single LED chip light with about 1 million hour life without dimming.

★ Battery:

Uses NiMH battery for long life and ability to charge at minimal source/input voltage.

★ Portability:

Total Weight of about 1.5kg and can be hanged or placed at any convenient location.

★ Input plug:

Comes with BS 3 pin plug.

★ Indicators:

Indicates for charging function.

★ Light Coverage:

The lamp fitting can be rotated to any direction as the need arises. Coverage can be as far as 20meters diameter

★ Test Mode:

can be tested at any moment to ensure it will respond at power failure. This can be done occasionally by the house technician.
